

The IPCR Initiative has added a new 30 page “Links” pdf document to the IPCR Website (see the “top of page” navigation, at [www.ipcri.net](http://www.ipcri.net)).

There are 24 categories of links included in the document. There is also information, often from the “About Us” section of the “links” website, which may help readers appreciate the “link” as a useful resource. Hopefully, the categories chosen, and the more-than-brief introductory information provided about the links listed, will help readers see more of the connections between different elements which are part of the same “big picture”.

People who would like to make suggestions for links to add to this list are encouraged to do so. Please direct such suggestions to Stefan Pasti [at [stefanpasti@ipcri.net](mailto:stefanpasti@ipcri.net) (or by way of information provided in the contact section of the IPCR website at [www.ipcri.net](http://www.ipcri.net))].

With Kind Regards,

Stefan Pasti, Founder and Outreach Coordinator  
The IPCR Initiative
